

ONE HOT SHOW

On Friday March 11 all students from Year 1 to Year 12 visited the Camden Show as part of their Community Access Program. The day was extremely hot and humid, but our early arrival and departure before lunch helped with meeting and accommodating the conditions for both students and staff.

For some of our younger students, the short trip to the showground from school was one of the biggest highlights. For others there were many and varied highlights, including: being called up to dance on the large stage with students from other schools; patting and caring for baby animals; being given free showbags and items from Camden Council and other community services and projects; looking at the inside of a fire truck; saying hello to Mater Dei ex-students who were attending on the day with their day program service providers; or purchasing a cool drink or delicious ice cream whilst watching the busy crowds pass by.

One of the biggest overall highlights was the second place ribbon awarded to the combined effort of 2/3 Polding, 3/4 McCabe and 4/5 Gibbons for their fantastic scarecrow in the schools competition. Congratulations!
