

THE END OF AN ERA

On Wednesday November 25, a morning tea was held at John Therry High School to celebrate the wonderful partnership that has been shared over the last 15 years between John Therry High School and Mater Dei through our Stage 6 Satellite Class. It is timely to explore a new model at our closer, neighbouring Magdalene Catholic high school from the commencement of 2016. The morning tea was a fitting tribute to the staff from both campuses and the guidance from the Wollongong Catholic Education Office, which will continue into our new relationship with Magdalene staff and students. In a letter from Tony Fitzgerald to Karen Young (Principal of John Therry) he wrote:

“The satellite class has been a wonderful work and a great relationship for each of our communities and although it is timely that we seek new pathways, no one should underestimate the impact of the relationship that has been and no one should underestimate my appreciation for the kindness, professionalism and dedication of you (Karen Young) and your community of staff at John Therry.”
